Welcome to the choir, Elena (when you read this).

Draft agenda for May 4, 30 minutes — I'll keep us moving:

- 0–3 min: Introductions all around
- 3–8 min: Engagement scope and timeline (me)
- 8–18 min: Architecture and install plan (Marcus)
- 18–24 min: Day-2 ops and developer workflow (David)
- 24–28 min: Training and certification path (me)
- 28–30 min: Open Qs and next steps

If your engineers come in with one or two questions queued up, we'll handle them in that last block. Working sessions later in the week are where we'll get into the weeds.

Priya Venkatesh
