Within scope. The training package as written includes up to eight EX180 and four EX288 vouchers, so you have headroom on both. I'll make a note that six and two are committed; if Berlin grows we can draw down the rest before December.

One small request — could you send me the four engineers' names with preferred email addresses by Friday? Our training team batches voucher issuance on Mondays and I'd like Liam, Sofia, Yuki, and Ben in the May 11 batch.
