Priya,

We're set for Monday. Final attendee list from our side:

- Elena Voss, CTO
- Raj Patel, Principal Architect (me)
- Liam O'Connor, Senior Engineer
- Sofia Ramirez, Senior Engineer
- Yuki Tanaka, Platform Engineer
- Ben Chen, Backend Engineer

Voucher email batch and the four engineers' addresses sent to your training team this morning, copying you.

Team has worked through the pre-read. Expect questions on day-2 ops, the install timeline, and how Source-to-Image fits with the CI we already have. Yuki has an opinion about Operators that I'll let him deliver in person.

See you Monday at 11.

Raj Patel
